

## **Best Practice-I**

### **1. Title of the Practice:**

EXPERIENTIAL LEARNING THROUGH STUDY TOURS

### **2. Goal:**

Organizing regularly the study tours and field visits for the life science students in each semester is the effort of our institution to serve students for effective teaching learning experiences. It provides a perfect platform for the students for interactions about the surrounding environment. It engages the students in higher order 'thinking' and investigation. The teachers play an essential role in making the students learning to a higher level.

### **3. The Context:**

Life science curriculum involves various issues related to the flora, fauna, their natural habitat and abiotic factors around the environment. Making the students to understand the various modules in the classroom is less effective. After regular teaching in the classroom, if the students are carried to the similar spots, then they will understand the concepts effectively under in-situ platform.

### **4. The Practice:**

For each semester, the faculty of life science departments (Botany and Zoology) plan for the trips to different sanctuaries, national parks, forests, riverine environments, zoos etc. For every semester, the students will be intimated to get ready to join the trip informing their parents. With intimation to the head of the institutions, permissions will be sought from the concerned authorities with a request to assist for the successful event. Never the trips are cancelled by the departments. We are proud to organize regular trips beyond the campus. Constraints or limitation: Being the girls strength more in each semester, some times it becomes tedious to make arrangements for the night stay in the respective forests, sanctuaries etc. However, forest, wildlife department officials have been making their efforts for the comfortable stay for our girl students.

### **5. Evidence of Success:**

Before leaving the campus for study tour, our faculty guide the students about the aim, what is to be studied in the nature etc. Every time, we have succeeded in completing the tour according to the plan and schedule. We are proud to state that 'succeeded in reaching the set targets'. Profit: Apart from studying the nature, the students collect the material found in nature. Hence we get plenty of study material for the regular practicals. Both the life science departments do not get material from the firms / shops. What is collected by them is neatly preserved after the return and kept in the museum. Thus we get the (i) good material for regular practicals (ii) saves expenditure on purchase from firms (iii) some rare specimens collected during trips have been kept in our museum.

## **6. Problems Encountered and Resources Required:**

With the cooperation of parents, students, never we have encountered any problems. The only resource required is vehicle for transport and most of the times we book good vehicles keeping in mind the security of students. Group leader among the students takes the responsibility of

## **Best Practice II**

### **1. Title of the Practice**

#### **GENDER SENSITIZATION**

Gender Sensitization is a basic requirement to understand the sensitive needs of a particular gender. It helps us to examine our personal attitudes and beliefs and question the 'realities' that we thought we know Why gender equality is important to economic development? Sustainable development relies on ending discrimination toward women and providing equal opportunities for education and employment. Gender equality has been conclusively shown to stimulate economic growth, which is crucial for developing countries. Gender sensitization presides over gender sensitivity, the modification of behavior by raising awareness of gender equality concerns. This can be achieved by conducting various sensitization campaigns, training centers, workshop, programs etc. In our college the Gender Audit tries to assess the impact of its current and proposed policies on gender equality and gender sensitization. Observing the gender equality, the girls are provided with various facilities and special attentions. The objective is not only the equality and empowerment of male and female but transgender also. It also aims to provide a harmonious and fertile environment for all students to excel physically, mentally, intellectually and emotionally upholding ethics and values. It is necessary to change their perspective about gender and create safe and secure environment where all three genders coexist harmoniously

### **2. Goal**

Gender mainstreaming wants to contribute towards a gender sensitive society where agreement between individuals, united around common goal, opportunities and responsibilities are shared by women and men in equal measure.

### **3. Objectives**

- To establish good gender balance in decision-making processes in all areas of the college activities.
- To suggest measures for bridging the gender gap.
- To implement the human values regarding the third gender.
- To inculcate the awareness among the students about the equality of the gender

### **4. The Practice**

Special study room, Reading Rooms, Ladies Room, Washroom Facility, Sanitary Napkin Vending Machine are provided for the girls. They are also given self-defense trainings like Judo Karate, etc. Our college has Anti- Ragging and Discipline Committee, Prevention of sexual Harassment Cell. The girl students are provided opportunities to express themselves under Women Empowerment Cell, and conduct the activities like Rangoli competition, food preparation without fire competition, Girls NCC, Beti Bachav, Self Defense and Yoga. Meditation Camps are also organized for students. The lectures of eminent personalities are held on various topics to develop their personalities. Various gender sensitization programmes are organized by different committees in the college to bring out the overall development of girls and boys and thereby to mould a better society with equality. It is observed that now a day's third gender issue is very sensitive. They are fighting for their identity as a person in society.

Society has neglected this race and considered them as an abuse. Focusing on this issue our college has taken a step to aware our students about the gender equality among the society.

## 5.Evidence of Success

Gender sensitizing programme brought the change in behavior and instilling understanding the thoughts and the views that we hold about our own and the other genders." It helps people in "examining their personal attitudes and beliefs and questioning the 'realities' they thought they know.

### Programmes conducted for gender equality

Title of the Programme	Date	Number of Participants
Laws related to woman in collaboration with Taluka Legal cell	09/08/2019	200
Special Lecture on Woman Empowerment	30/09/2019	150
Awareness about Breast cancer	10/10/2019	200
