Detailed Report Two Days Library Orientation Programme(Library Tour) 2022-23

The College Central Library recently organized a comprehensive two-day library tour from 12-10-2022 to 13-10-2022 as part of its orientation program for freshmen. This initiative aimed to familiarize students from all three streams – BA, B.Sc, and B.Com – with various aspects of the library's operations and services.

Throughout the two-day program, students had the opportunity to explore different sections of the library and gain insights into its housekeeping operations. They were introduced to the layout of the library, including the arrangement of books and resources. Additionally, students were informed about the services provided by the library, such as borrowing and returning books, accessing electronic resources, and seeking assistance from library staff.

A significant focus of the orientation was on introducing students to the usage of NLIST (National Library and Information Services Infrastructure for Scholarly Content) provided by INFLIBNET (Information and Library Network). This platform offers access to a wide range of scholarly resources including e-journals, e-books, and databases, thereby enriching students' academic experience and research capabilities. Students were guided on how to navigate NLIST effectively to access relevant academic materials for their studies.

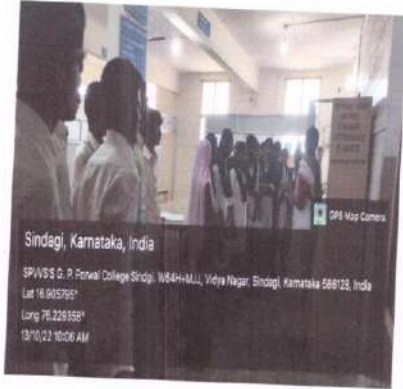

Furthermore, the program included interactive sessions where students could ask questions, seek clarification, and engage in discussions with library staff to enhance their understanding of library operations and resources.

Overall, the two-day library tour provided students with a comprehensive understanding of the College Central Library, its functions, and the resources available to support their academic endeavors across various disciplines. It served as an essential foundation for students to maximize their utilization of the library's facilities throughout their academic journey.
