3) An agricultural subsidy is a government incentive paid to agribusinesses, agricultural organizations & farmers to supplement their income, manage the supply of agricultural commodities and influence the cost and supply of such commodities.

MINIMUM support price for agricultural produce. Introduction: The prices of agricultural commodities are inherently unstable primarily due to the variation in their supply, lack of market integration and information asymmetry. A very good harvest in any year results in a sharp fall in the price of that commodity during that year which in turn has an adverse impact on the future supply as farmers withdraw from sowing that crop in the next following years. This then causes paucity of supply next year, the subsequent major price increase for consumers. To counter this, minimum support price for major agricultural products is
